

The Power of a Perfect Smile

World-Class Dentistry for an Optimal You

MARLEN
ELITE DENTAL WELLNESS

Marlene, before

Lorem ipsum short description of patient's experience goes here. Needs to be a shorter description. Marlene came to our office complaining of clenching, grinding, and food getting caught between teeth. She also mentioned that her lower teeth seemed to be falling towards the front and that the front teeth were "twisted". After a thorough dental exam, a personalized treatment plan was presented and complete. Marlene was delighted with the end results. Her smile makes us smile!

A Beautiful Smile and Beyond

DISCOVER THE MARLEN ELITE DENTAL WELLNESS DIFFERENCE

Your smile is a window into your overall wellness. It's not just about how you look; it's also about you feel—physically and emotionally.

At Marlen Elite Dental Wellness, the smiles we create reflect the ideal balance of aesthetic beauty, optimal dental wellness, and total health. Our comprehensive approach encompasses the

functional and the aesthetic to ensure your smile becomes a beautiful reflection of complete wellness.

Creating a beautiful smile with Marlen Dental Wellness is a powerful experience. It won't just change your look. It will change your life—the way you feel about yourself and the way the world sees you.

Your First Visit

AN EXCLUSIVE FOCUS ON YOU AND YOUR NEEDS

A comprehensive exam and consultation are your introduction to our elite, one-to-one approach to care.

It all starts with a simple conversation. We block out time for you exclusively. Our attention will be focused only on you—no waiting, no other appointments will be made during this time. Dr. Marlen will personally discuss your concerns and goals and answer any questions.

Personalized, caring attention combined with state-of-the-art technology yields insights for a custom-tailored treatment plan. From initial insight to the perfect bite, we identify and resolve underlying issues within your head and neck system to achieve a stunning, long-lasting smile crafted in harmony with your overall health.

Our welcoming, stress-free 5-step process for your consultation:

- 1 Our patient coordinator meets with you in our comfortable consultation room.
- 2 We take digital photographs of your mouth and measurements of your bite.
- 3 Dr. Marlen and our patient coordinator meet with you to review your photographs and to discuss function and cosmetic concerns.
- 4 We create a custom treatment plan designed for you that will help improve aesthetics, health, and the function of your teeth and jaw.
- 5 We answer your questions and, if you're ready to get started, we will book your first treatment appointment.

Paul, before

Lorem ipsum short description of patient's experience goes here. Needs to be a shorter description. Paul came to the office seeking help for sleep apnea, in addition to TMJ pain, tension grinding and clenching of his teeth. We performed a full mouth reconstruction, which now allows him to show his upper and lower teeth when he smiles. In addition to that, Paul traded in the CPAP machine he hated for a sleep apnea appliance. He couldn't believe the results. Paul is very happy with his teeth and absolutely loves his new smile.

A Stunning Smile and a Healthier, Happier You

Powerful Technology with a Personal Touch

A HIGH-TECH, HOLISTIC APPROACH PERSONALIZED TO YOUR NEEDS

You look in the mirror. We look deeper to ensure you enjoy total dental wellness. Our advanced technology provides you with a complete view of your dental health, so you can confidently move forward with a customized treatment plan.

Our high-tech office space and elite personalized attention ensure our procedures are effective and your experience is comfortable and relaxed.

Our advanced imaging equipment painlessly captures superior 3D views of your mouth, head and neck.

THE IDEAL BLEND OF SCIENCE AND TECHNOLOGY FOR SUPERIOR RESULTS

Advanced 3D Imaging
with cone beam computed tomography (CBCT) technology produces high-resolution 3D images of your mouth, jaw and airway.

Tekscan Bite Assessment
provides a precise computerized bite analysis and ensures your bite is optimally balanced after treatment.

Biopak EMG
muscle readings provide clear diagnosis of pain and ensure the long-term stability of dental work.

LANAP (Laser Assisted New Attachment Procedure) replaces a scalpel for laser-focused periodontal treatment and other procedures—no incision needed.

Intraoral Scanners
captures a direct optical impression of your teeth and mouth and eliminates uncomfortable conventional tray impressions.

Biopak Jaw Tracker
dynamically analyzes jaw movement for insight into diagnosis and treatment planning.
